ASTI - Association de Soutien aux Travailleurs Immigrés

A non-governmental organisation, created in the year 1979 to fight for the right to vote for immigrants and equal rights for all.

Creating the Immigration Festival, co-organiser of the Ateliers des Cultures, ASTI is looking for national and international partnership. Active on asylum seekers' and so called illegal peoples side as well as with kids, their parents and youngsters having immigrated to Luxembourg, ASTI is proposing changes in the school domain, and acting on anti-discrimination issues.

ASTI works for a new society, rich of its diversity.

Beside political lobbying and activities being financed exclusively by donations, many activities being supported by different ministries are being undertaken together with kids, teenagers, adults, creating new pedagogical material and running a documentation centre on intercultural topics or a intercultural agency.
